Sensitive cultural resource data are not shown on this map as these data are not to be reproduced, distributed, or released to the public.

Some data layers obtained from third-party sources may be inaccurate to varying degrees. These data have not been controlled in all locations and should be used as a general guide to feature locations only. Duplication of proposed transmission line links was performed based on aerial interpretation of these features.

Some legend symbols are enlarged for easier identification.

Some features are exaggerated to better identify paralleling opportunities.
